

Are you reaping the RCx Benefits?

RETROCOMMISSIONING

MAZZETTI+GBA

Did you know, that if your facility runs at a **5%** profit margin, every dollar in energy cost you save is equal to bringing in **\$20 of additional** revenue?

RetroCommissioning can *help* you by:

- Reducing energy
- Improving the operation of systems
- Correcting areas where HVAC systems are causing complaints
- Locating additional capacity in systems

And the return on this investment?

Often in less than **2 years!**

Mazzetti worked with Ascension Health on **7 Wisconsin Hospitals** over the past year...

ASCENSION HEALTH

is a Catholic organization that is the largest not-for-profit health system in the US that strives to provide complete care for all patients in need. Their health organization helps bring spirituality hope to those in need through the interworking of modern day healthcare. Main motives are to provide health care to the poor and those in need, promote self-wellness, and transform the future of the healthcare industry.
