

Voluntary Carbon Market Disclosures for CA Bill AB1305 Compliance
California Assembly Bill 1305 (AB 1305), also known as the Voluntary Carbon Market Disclosures Business Regulation Act (VCMDA), is a law that aims to bring transparency and accountability to the voluntary carbon offset market and related net zero claims in California.

Voluntary Carbon Market Disclosures

VCMDA disclosures begin January 1, 2025 for businesses entities marketing or selling voluntary carbon offsets within the state of California.

Project Name: Trees for Global Benefits

Registry: Plan Vivo **Project Location:** Kampala, Uganda

Project Registry ID: Plan Vivo PV1000000000000171

Project Type: Removal - Ecosystem restoration

Project Start Date: 2/1/2016 **Project End Date:** **Durability (Removals Only):** Less than 100

Verifying Body: Guy Pinjuv

Registry URL: <https://www.planvivo.org/trees-for-global-benefits>

Project Data URL: <https://www.planvivo.org/trees-for-global-benefits-documents>

Accountability Measures: The buffer pool is managed by the registry and can either contain buffer credits from all projects within the registry program in a single combined pool, often divided by project type, or can be individually linked to specific projects.

Protocol/Methodology(s):

- Plan Vivo (SHAMBA): Small-Holder Agriculture Monitoring and Baseline Assessment

The Plan Vivo Standard, known as Small-Holder Agriculture Monitoring and Baseline Assessment (SHAMBA) is a certification framework for community-based Payments for Ecosystem Services (PES) programs supporting rural smallholders and community groups with improved natural resource management. The standard is designed to ensure that Plan Vivo projects benefit livelihoods, enhance ecosystems and protect biodiversity.

Total Project Issuances:

Vintage	Units Issued
2016	107,313
2017	119,662
2018	111,852
2019	262,284
2020	360,105
2021	452,224
2022	1,487,664

Additional Standards Met:

Estimated Annual Emissions Reductions/Removals: 140,000
